Today’s Focus

• Background on the Health Connector
• Challenge: Expanding into the Small Group Market
• Discussion and Questions
The Massachusetts Health Connector

The Health Connector’s primary role is a marketplace where consumers can easily compare insurance plans from different carriers.

- Established by Chapter 58 of the Acts of 2006
- Became state’s ACA-compliant Marketplace in 2014
- Quasi-public authority governed by eleven-member Board
- 50+ full time employees
- Sells non-group and small group coverage in the form of Qualified Health Plans (QHPs)

Other responsibilities include
- Oversight of student health insurance
- Policies related to the MA individual mandate
- Outreach to the uninsured
Non-group Enrollment in 2018

The Health Connector serves roughly 80% of the over 300,000 individuals in the non-group market in Massachusetts, mostly through the ConnectorCare program.

Small Group Enrollment in 2018

However, the Health Connector only serves just over 1% of the small group market in Massachusetts and has retained the same portion of the MA market since March 2016.

Small Group Coverage in Context
Small Business Landscape

- As of 2016, small firms (with fewer than 50 employees) comprised approximately 86% of the roughly 125,000 MA firms, but employed only 15% of the workforce and 11% of employees covered in group plans.
- Small group membership comprises 12% of the total commercial market in MA.

Source: CHIA Employer Survey (2017)
Small Group Coverage Landscape

Small firms are substantially less likely to offer health insurance than large firms.

Small Group Market

Roughly 7% of Massachusetts residents are covered by small group health insurance.

- **Merged Market**
  - Individuals and small businesses were put into the same risk pool under 2006 state reforms

- **450,000**
  - Small business employees and dependents are insured through small group coverage

- **$487**
  - Average per member per month premium in the small group market in 2017

Carrier Options

The Health Connector is the only place in Massachusetts where small groups can access every single leading carrier in the marketplace—and allows employers the option to let their employees choose from different plans.
# Choice Models

## One Plan
- Employer selects one health plan
- The employee is enrolled in the selected plan

## One Carrier
- Employer selects one carrier
- The employee can choose any plan within the selected carrier

## One Level
- Employer selects a reference plan from a Metallic Tier
- The employee chooses any health plan within the selected tier
### Choice Models

Small businesses are receptive to the new choice models – a majority of 2018 new sales elected a choice model option.

- **40% of new sales in 2018** were in the One Plan option
- **32% of new sales in 2018** were in the One Carrier option
- **28% of new sales in 2018** were in the One Level option
Redesigned Wellness Program

The Health Connector recently relaunched a streamlined wellness program aimed to increase participation. In 2017, only 2.4% of eligible groups received rebates.

**Awareness Campaign**
Targeted communications sent to groups at initial enrollment, renewal, and throughout the plan year

**Automatic Enrollment**
Groups with 1-25 enrolled employees are eligible for up to 3 rebates while enrolled through the Health Connector

**Employee Incentive**
Eligible employees receive a $100 gift card after completing a webform confirming approved activity

**Employer Rebate**
Employers receive a 15% contribution rebate at the end of the plan year if 33% of employees participate
Redesigned Wellness Program

Employers are incentivized to contribute more as the rebate is tied to the employer contribution amount. In 2018, employers received an average rebate of $3,000.

The Health Connector and Small Businesses: Outcomes
Small Group 2018 Plan Choices

On-Exchange small group enrollees’ plan selections differ substantially from those chosen by off-Exchange shoppers.

2018 Small Group Enrollment On- and Off-Exchange

Average Premiums for Small Groups on- and off-Exchange

Small businesses save over 20 percent on average by shopping through Health Connector for Business, before any rebates.

Source: Health Connector for Business data as of September 2017 and March 2018.
The Health Connector and Small Businesses: Next Steps
Emerging Trends: Currently untapped potential

The Health Policy Commission has helped draw attention to the low premiums the Health Connector has been able to deliver for individuals. It’s less well understood that small employers can access these same low premiums through Health Connector for Business.

Annual premiums for single coverage in the employer market and average annual unsubsidized benchmark premium for a 40-year-old in the ACA Exchanges, MA and the U.S., 2013-2018

Notes: US data include Massachusetts. Employer premiums are based on the average premium according to a large sample of employers within each state. Small employers are those with less than 50 employees; large employers are those with 50 or more employees. Exchange data represent the weighted average annual premium for the second-lowest silver (Benchmark) plan based on county level data in each state. These plans have an actuarial value of 70%, compared to 85%-90% for a typical employer plan, and are thus not directly comparable to the employer plans.

Marketing and Visibility

Employers and brokers are targeted through a coordinated paid media and outreach campaign.

- Impactful radio and digital messages on platforms with high frequency of small-business owners and brokers
- Upcoming digital pieces include member testimonials (example in photo right)
- A door-to-door campaign in Middlesex County has reached out directly to more than 1,200 businesses in health, construction, and business services industries
- Partnerships with New England Business Association and Small Business Administration help expand footprint through well-known and trusted entities
- An extensive campaign of presentations and visibilities at Chambers of Commerce and business-centric events create new exposure for Health Connector for Business
Becoming Stronger Presence in the Small Group Market

- Raising awareness
- Removing barriers to enrollment
- Bringing same cost-curve bending potential to small group market
